

MOS_SkyTool

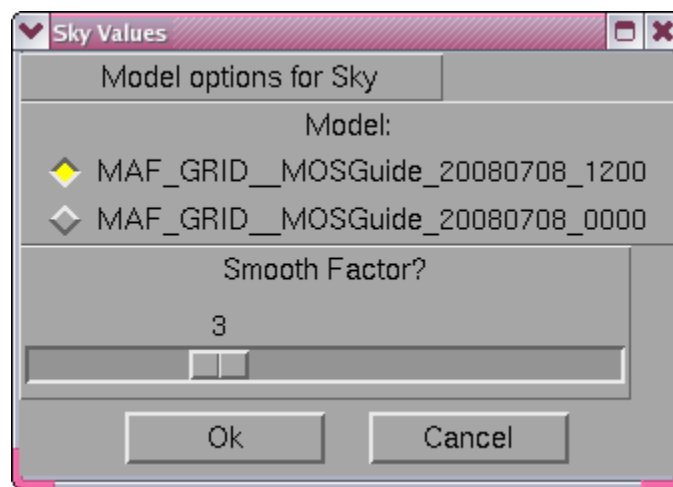

*Brian Curran
NWS WFO Midland/Odessa, TX
8 July 2008*

Description

MOS_SkyTool copies the MOS guidance sky coverage grids to the forecast database and allows the user to smooth these grids.

Usage

On launch, the following GUI is presented to the user:

The user has the option of selecting the current and previous versions of the MOS guidance Sky grids available in GFE. The user also can use the slider bar to select the number of times these data will be smoothed. Values from 0 to 10 are allowed, with 0 indicating that no smoothing will be performed on the Sky grid.

Configuration

None.

Requirements

MOS guidance Sky grids must exist for this tool to run.

Future work

None.
